 - 1 #2.5 friend
 - 2 #2 camalot
 - 2 #3 friend
 - 1 #3 camalot
 - 1 long cordalette
- 60 meter rope mandatory!!!**

Pitch by Pitch Tips

1. Easy chimney. Stem at top. Belay at slings
2. Maybe a bolt for crux. High TCU to protect move. Belay at second tree.
3. Funky move out of belay. Climb arete w/minimal pro. Belay on big ledge.
4. Move rt and wander up to crack and set a hanging belay.
5. Easy hands to top of pillar.
6. Crux? Maybe. Climb face instead of OW. Full rope to a crap anchor. Watch drag.
7. Easy ramp.
8. Cool pitch. Use plenty of slings. Anchor is kinda weak. Back it up with a high piece on ramp.
9. Very long pitch. Belay at tree.
